Noah, one of our Kindergarten students will be attending the annual Rock & Walk Fundraiser for the Maryland Chapter of the TEARS Foundation on May 21st. He will be walking in support of families to honor their lost babies. In his words, "I walk for the babies whose souls are in Heaven." The TEARS Foundation compassionately lifts some of the financial burdens of families that have lost a child by providing funds for burial and cremation services. They offer comprehensive bereavement care in the form of grief support groups for the entire family in many locations throughout the state. They graciously donate memory boxes and books to Maryland hospitals for patients.

You can support Noah by visiting his fundraising page:

It's easy to know your child needs help dealing with a fever or a broken bone, but mental health conditions can be harder to identify. Children of all ages, even as young as infants, can experience mental health conditions. A difficulty of parenting is knowing the kinds of behaviors and moods that are usual for the stage of development your child is in and when your child has gone beyond the norm and needs help.

**1 in 5 children has a significantly impairing mental disorder, yet less than half get the treatment they need.**

*\*National Institute on Mental Health*

[ChildrensMentalHealthMatters.org](http://ChildrensMentalHealthMatters.org)

1 in 5 children (20%) and adolescents may have a mental health condition at any given time. It is important to remember that a child's mental health is just as important as their physical health.

Almost 2/3's of all young people with mental health conditions are not getting the help they need. Without support, children may experience school failure, substance use and family trouble.

A child's age, stage of development and ability to communicate can make it difficult to distinguish between a mental health condition and natural development.

Some of these illnesses, such as anxiety disorders, eating disorders, mood disorders and schizophrenia, can occur in adults as well as children. Others, such as behavior and development disorders, elimination disorders, and learning and communication disorders, begin in childhood only, although they can continue into adulthood.

**MINDFULNESS FOR MENTAL HEALTH**  
Cultivating awareness and inner peace

-  Mindfulness is the practice of being present and aware in the moment. It can help reduce stress and anxiety, improve mood, and promote overall well-being. Here are some tips to help you cultivate mindfulness.
-  Practice mindful meditation. Set aside a few minutes each day to sit in quiet reflection. Focus on your breath, body sensations, or a mantra to help you stay present.
-  Start with your breath. Take a few deep breaths and focus on the sensation of the air moving in and out of your body. This can help you become more grounded and present.
-  Engage your senses. Take a few moments to notice the sights, sounds, smells, and tastes around you. Engaging your senses can help bring you into the present moment.

## Our Catholic Faith at St. Philip Neri School – St. Philip Neri's Feast Day

# ST. PHILIP NERI

May 26th

Information from  
<https://www.catholic.org/saints>

St. Philip Neri was a Christian missionary and founder of the Congregation of the Oratory, a community of Catholic priests and lay brothers. He was born in Florence on July 21, 1515, as one of four children to Francesco Neri.

From a very young age, Philip was known for being cheerful and obedient. He was affectionately referred to as "good little Phil."

At 18-years-old, Philip went off to live with a wealthy family member in San Germano. He was sent there to assist in - and possibly inherit - the family business. However, soon after his arrival, Philip experienced a mystical vision, which he eventually spoke of as his Christian conversion. This event was an encounter with the Lord and it dramatically changed his life.

He soon lost interest in owning property or participating in business. He felt a call from the Holy Spirit to radically live for and serve the Lord Jesus Christ and His Church. So, Philip set out for Rome.

Once in Rome, Philip was the live-in tutor for a fellow Florentine's sons. Under Philip's guidance, the two boys improved in all aspects of life and faith, proving Philip's special talent with human relationships and in bringing out the best in people.

During his first two years in Rome, Philip spent his time in a solitary life. He also dedicated a lot of time to prayer. He ate very small meals of bread, water and a few vegetables, practicing an ascetical life.

In 1535, Philip began studying theology and philosophy at the Sapienza and at St. Augustine's monastery. Although he was considered a "promising scholar," after three years of studies, Philip gave up any thought of ordination. He set out to help the poor people of Rome and to re-evangelize the city. Sadly, Rome had lost its first love and its inhabitants were no longer really living as Christians.

He began talking to people on street corners and in public squares; he made acquaintances in places where people commonly gathered.

Philip had a knack for starting up conversations and leading his listeners to consider a new and better way of life, the Christian Way. He easily caught others' attention with his warm personality and incredible sense of humor. He encouraged groups of people to gather for discussions, studies, prayer and the enjoyment of music. His customary question was always, "Well, brothers, when shall we begin to do good?"

Losing no time in converting good conversation to good actions, Philip would lead his followers to hospitals to wait on the sick or to the Church, to pray to and encounter Jesus Christ.

In short, Philip was an evangelist. He loved to share the Gospel and help people to find or rediscover their faith in Jesus Christ.

# Summer Tutoring

This summer we will be offering tutoring here at SPN. Tutoring will run from the week of June 26 through the week of July 31 on Mondays-Thursdays. Each session will be a one-to-one, one-hour block of time, and will cost \$40 for each session.

If you are interested in tutoring for your child, fill out the form below indicating your preferred day and time and return to Ms. Piwko. If your child will be attending summer camp at SPN, let us know and we will arrange a time that will not interrupt their participation in the camp activities.

There are limited tutors this summer, so priority will be given to those that return their forms first. During the last week of school, the tutor that will be working with your child will contact you to make final arrangements for tutoring.

If you have any questions, feel free to contact Ms. Piwko at [epiwko@spnmd.org](mailto:epiwko@spnmd.org)

## Usable Glasses Can Make A Difference!

### Why Recycle Glasses?

An estimated 120 million people are visually impaired because of uncorrected refractive errors (far and near sightedness). Almost all cases can be corrected, and normal vision can be restored with eyeglasses, contact lenses or refractive surgery.

The lack of eyeglasses denies children and adults opportunities for education, employment, and a better quality of life.

### The Journey of Recycled Glasses

1. Lions and Leos collect used eyeglasses at various community locations.
2. The eyeglasses are shipped to the nearest Lions Eyeglasses Recycling Center where trained volunteers sort, clean and determine the prescription strengths of the glasses.
3. Volunteers at the recycling center carefully package the prepared glasses and store them until they are required for eyeglass dispensing missions. Glasses that are not suitable for reuse are recycled for scrap, with the earnings benefitting local Lions and Leos projects.
4. At the mission site, eye care professionals and trained Lion and Leo volunteers perform vision screenings and dispense the appropriate recycled glasses, free of charge, to children and adults in need.

### Do You Know ...

Lions Eyeglasses Recycling Centers throughout the world clean and store usable recycled eyeglasses.

Lions Eyeglass Recycling Centers operate voluntarily with the support of public donations, individual member contributions, and Lions Clubs International Foundation grants.

Many Lions Eyeglass Recycling Centers help minimize landfill waste by supporting precious metal reclamation and scrap processing. Broken glasses are discarded, providing "scrap to cash" income that can aid local community projects.

100% of public donations to Lions clubs are used for charitable causes – none go for administrative expenses.

### Your Efforts Count!

Donate your used glasses, including sunglasses and reading glasses, to a Lions or Leos club collection point near you.\*
