## ENROLLMENT FOR 2025-2026

### COMPLETED CHECKLISTS ARE PAST DUE! 55% Missing!!!

If you have NOT completed your checklist, your student is in jeopardy of losing their spot at our school. We have a huge waitlist of families waiting to get into SPN.

Ms. Amy has been keeping track of a few families who are waiting for certain information before completing their checklists. If you are NOT on this list and have NOT completed your checklist, please contact Ms. Amy Sewell IMMEDIATELY at [asewell@spnmd.org](mailto:asewell@spnmd.org).

We understand that younger siblings new to the school may not have their health forms completed as of this date, so their checklist might not be at 100%. **The CONTRACT and FACTS tuition payment plans must be set up.**

Financial aid awards from the Archdiocese of Baltimore (AOB), SPN SCHOOL and SPN PARISH have been posted and awards notices sent to recipients. Questions about financial aid may be directed to Mrs. Sue Wenzlick at [swenzlick@spnmd.org](mailto:swenzlick@spnmd.org).

## Facts About Children's Mental Health

Prompt intervention is key to preventing long-term or severe mental health conditions from persisting into adulthood. By addressing concerns early on, we can empower children to navigate life's challenges with resilience and strength.

**1 in 5**

children and adolescents have a mental health condition at any given time

**50%**

of all lifetime cases of mental disorders begin by age 14

**50%**

### Gaps in Care

About half of children with treatable mental health conditions do not receive adequate care.

### Rising Rates

Mental health problems in children ages 6 to 17 continue to rise.

## PREVALENCE

According to the National Institute of Mental Health (NIMH), approximately 1 in 5 U.S. children and adolescents may experience a mental health condition at any given time. Recognizing and addressing these conditions is crucial, as mental health is just as vital as physical health for a child's overall wellbeing.

## SUICIDE RATES

### 2<sup>nd</sup> Leading Cause of Death

According to the CDC, suicide was the second leading cause of death for individuals aged 10 to 24 years old in the United States in 2020. Among children aged 10 to 14, the suicide rate nearly tripled from 2007 to 2017.

## ACCESS TO CARE

Access to mental health care for children remains a significant challenge. The American Academy of Child and Adolescent Psychiatry (AACAP) reports that only 20% of children with diagnosable anxiety disorders and 40% of children with diagnosable depression receive treatment.
